**TO BE COMPLETED BY PARENT/GUARDIAN**

I give my permission for (name of child) \_\_\_\_\_ to receive the above stated medication at school according to standard school policy. I release Meritus Health, the Washington County Board of Education, and their employees from any claim or liability for administering prescribed medication to this student. I have read the information on the back of this form and assume the responsibilities as stated on this form. I authorize the school nurse to communicate with the health care provider as allowed by HIPAA.

Order reviewed by the School Health RN: \_\_\_\_\_ Date: \_\_\_\_\_

## Medication Guidelines

The following medication guidelines are used in Washington County Public Schools. These guidelines enable the school health staff to provide the best possible service to your child.

1. In order for medication to be given at school, the medication must be accompanied by a properly completed *Physician Medication Order Form*.
2. Prescription medication(s) must be in a container labeled by the pharmacist with the student's name, prescriber's name, name of medication, dosage, route, directions for administration, conditions for storage, prescription date and expiration date. Maryland law allows prescription medication to be used either for 1 year beyond date of issue or by the expiration date indicated on the medication—whichever comes first.
3. Over-the-counter medication(s) must be provided to the school in the original sealed container. It is also important to make sure there is a current expiration date on it. Staff may not dispense outdated medication.
4. The directions on the prescription label must match the directions on the *Physician Medication Order Form*.
5. The school nurse will call the prescriber as allowed by HIPAA if a question arises about the child and/or child's medication.
6. An adult must bring the medication to school. No medication will be sent home with a student.
7. All medications are kept in the Health Office.
8. All medication must be picked up by an adult at the end of the school year. NO medication will be sent home with your child.
9. It is recommended that your child receive the first dose of any newly prescribed medication at home.
10. The *Physician Medication Order Form* must be reviewed and signed by the school RN before medication administration can begin. The school RN is allowed at least 2 school days to review and sign the order.
