

## **CARPENTRY 2020-2021**

**WELCOME!!** I hope everyone is looking forward to an exciting year. There are just a few things you need to know.

- 1. The best thing to bring with you is a good attitude. There will be hot days and cold days but everyday is a day that we will learn something. The more willing you are to learn and be a valuable part of the team, the better everything will work.**
- 2. Bring your own safety glasses. I have spares but having your own is the best policy.**
- 3. Shorts are OK. They must be a canvas work short. No gym shorts at all!!**
- 4. Steel toe shoes are not necessary. Get something comfortable!! You will be covering 5000 to 10000 steps a day. No sneakers or tennis shoes though. I typically wear hikers.**
- 5. Bring a change of clothes if necessary. Bring at least one extra T-Shirt at a minimum.**
- 6. Tools!!! If you are sourcing tools get a minimum of a small tool belt, measuring tape, speed square, hammer and a pencil or three. I have tools if need be.**
- 7. Tools again!! DO NOT feel obligated to go get a full set of cordless tools but if you do get an impact driver. That is the main item if you're getting cordless tools.**
- 8. TUB!! Grab a black tub with the yellow lid at Walmart etc. Easy to use, easy to stack.**
- 9. We provide transportation to and from the job site.**
- 10. Bring some water and snacks. We have water but typically don't have cups.**

**Be POSITIVE!!!!** Everyday for us is a different day. We have several builds planned from our different routine and it should be a fantastic year!!

Should you need me please email me at [shookler@wcps.k12.md.us](mailto:shookler@wcps.k12.md.us)

**Thank You!!!!**
