

Cisco Networking Academy

Incoming Juniors: Congratulations on being chosen from a select group to become my next Cisco Students here at WCTHS!

Here are the items you should be aware of:

- Paper, pens, & pencils (*every day!*).
- Be prepared to save roughly \$35 for a 'Cisco' polo shirt. That shirt **MUST** be worn by the entire class on Thursdays (sizes will be ordered once payment is received). Checks are to be payable to 'Washington County Technical High School'. (Once I know the specific price this Fall, I will ask your student for the money at that time...if you pay by cash, use exact change (please)...more on that after school starts).
- I send parent letters home frequently that typically need a signature. Work together to designate a special place to review paperwork...this is most important for home situations where the student and parent/guardian are not seeing each other due to rotating work shifts, etc.
- If you need SSL hours finish them as soon as possible.
- With your parent/guardian's permission, your summer assignment is as follows: watch these movies: "The Imitation Game", "Hidden Figures". and "ARGO".

Please: enjoy the summer and get outside (*away from the TV, internet and video games ☺!*). If you need to contact me, text me at 301 302 9634 or email me here at school at longdav@wcps.k12.md.us

You will receive a separate form for the date of school orientation in the Fall. I need you and your parent(s)/guardian(s) to be present at this important meeting. *Please be prompt! You will also meet your academic teachers that same night.* Thanks © Mr. Long
